By signing this form, I declare that I am authorized to represent and bind the company named above.

By registering, you agree that the details you provide may be shared with the organising partners of the NL Pavilion at Hannover Messe: FME, Holland High Tech, psps business abroad and the NL Enterprise Agency (RVO). These details will be used solely to organise and run the NL Pavilion.

Terms & conditions

These terms and conditions apply to all agreements concluded with psps business abroad (psps or its executors to participate in the "NL Pavilion at HANNOVER MESSE 2027"). In addition, the general terms and conditions of psps business abroad apply.

1. The company or institution must be registered in the trade register of the competent Chamber of Commerce in accordance with the Trade Register Act 1996.

2. Registration must take place by means of the participation form sent, completed, signed and returned to psps.

3. **Deadline** for application is no later than **20.11.2026**. Possible additional wishes must be discussed separately and confirmed in writing (by e-mail). Manual additions to the participation form will not be accepted.

Participants who have registered prior to 20.11.2026 can indicate their preferred placement on the pavilion. This is on a first come, first serve basis. Due to this, no guarantees can be given on the final placement in case there is overlap between the individual wishes of participating early-bird companies.

4. Registration is binding 48 hours after registration. No cancellation is possible without costs. Cancellation by the participating company does not affect the obligation to pay the entire participation fee and any further financial consequences of the cancellation.

5. For participation in the NL Pavilion with an own booth, prices as described in page 1 will be invoiced according to the chosen package. For this amount you will receive: a working station (1 standing wall with graphic panel, 1 43 inch television, 1 cube desk, 1 chair) with 230V electricity and internet access. You will also receive access to our preparation seminars and coaching, networking event and catering during the trade show. The costs are excl. travel and accommodation expenses. Costs for transport, insurance of the exhibition goods and extra facilities in the stand are at your own expense.

In case of force majeure, or an official cancellation of the Hannover Messe by the German government, psps assumes, that in case of cancellation by the Hannover Messe (see above), no costs will be passed on by the trade fair organization to its participants. If, due to one of the aforementioned reasons, the trade fair organization cancels the fair and decides to pass on costs to its participants, this amount will not exceed 50% of the original participation fee.

6. The NL Pavilion is subject to two conditions: a minimum of 20 participating companies by the January 31st, and the award of a subsidy under the Strategisch Beurzenprogramma (SBP). If either condition is not met, psps and its co-organising partners reserve the right to cancel the NL Pavilion. In that case, registered companies will not be charged any costs and any amounts already paid for participation will be refunded in full. psps will inform registered companies of a cancellation in writing (by e-mail) as soon as possible. psps and its co-organising partners are not liable for any other costs participants may have incurred, such as travel or accommodation bookings.

6. When applying for the NL Pavilion, the participant commits to a formal trade fair registration through The Hannover Messe.

7. psps has contracted a stand construction company for the realization of the NL Pavilion at the Hannover Messe. By registering, the participant commits to using the booth and stand construction offered by psps and the contractor. psps will be responsible for coordination between the Stand Constructor and the NL Pavilion participants.

8. After registration, the participant will receive an invoice for the entire amount including VAT beginning of January 2027.

9. Payment should be made within 10 days of receipt of the invoice. Should the payment not be received in time by psps, psps reserves the right to exclude the participant in question from participation. All consequences of such cancellation shall be borne by the company concerned.
